Dear Shareholder,

This semiannual report covers the six-month reporting period ended 30 September 2023 (the "reporting period"). On the subsequent pages, you will find details regarding investment results and a discussion of certain factors that affected performance during the reporting period.

The global economy remained resilient during the reporting period despite elevated inflation, higher interest rates, tighter credit conditions, and geopolitical concerns affecting many countries. This resilience was particularly evident in the United States ("U.S."). Some European economies experienced slower growth, but continued to modestly expand over the reporting period.

Central banks remained committed to fighting inflation

Amid persistent and elevated inflation, many central banks raised interest rates to rein in rising prices. From March 2022 through July 2023, the U.S. Federal Reserve (the "Fed") raised the federal funds rate a total of 5.00%. In September 2023, the Fed paused from raising rates as it continued to assess additional information and its implications for monetary policy. From July 2022 through September 2023, the European Central Bank raised interest rates a total of 4.00%. Meanwhile, from December 2019 through July 2023, the Bank of England raised its Bank Rate a total of 5.10%, and then held it steady in September 2023.

Mixed financial market returns

The yield on the benchmark 10-year U.S. Treasury moved higher over the reporting period, as was the case for 10-year bond yields in many other developed market countries. Against this backdrop, overall global credit bond markets delivered negative total returns. Higher-rated global bonds underperformed lower-rated global bonds. Global equities rallied, while commodity prices were volatile and produced mixed returns. The U.S. dollar strengthened against the euro, the British pound, and the Japanese yen.

As always, we will work diligently to navigate dynamic global markets and manage the assets that you have entrusted with us. We encourage you to speak with your financial advisor about your goals and visit global.pimco.com for our latest insights.

Sincerely,

Craig A. Dawson Chairman

Important Information About the Funds

This material is authorised for use only when preceded or accompanied by the Company's current Prospectus. Investors should consider the investment objectives, risks, charges and expenses of each Fund carefully before investing. This and other information is contained in the Prospectus. Please read the Prospectus carefully before you invest or send money.

The PIMCO Emerging Markets Advantage Local Bond Index UCITS ETF, the PIMCO Euro Short-Term High Yield Corporate Bond Index UCITS ETF and the PIMCO US Short-Term High Yield Corporate Bond Index UCITS ETF are exchange-traded Funds ("ETFs") that seek to provide a return that closely corresponds, before fees and expenses, to the total return of a specified index (collectively, the "Passive Funds"). The Passive Funds employ a representative sampling strategy in seeking to achieve their investment objectives and as a result may not hold all of the securities that are included in the underlying index. The PIMCO Euro Low Duration Corporate Bond UCITS ETF, the PIMCO Euro Short Maturity UCITS ETF, the PIMCO US Dollar Short Maturity UCITS ETF and the PIMCO US Low Duration Corporate Bond UCITS ETF, unlike Passive Funds, are actively managed ETFs that do not seek to track the performance of a specified index (collectively, the "Active Funds" and together with the Passive Funds, the "Funds"). The PIMCO Emerging Markets Advantage Local Bond Index UCITS ETF, the PIMCO US Dollar Short Maturity UCITS ETF, the PIMCO US Low Duration Corporate Bond UCITS ETF and the PIMCO US Short-Term High Yield Corporate Bond Index UCITS ETF are listed on the Euronext Dublin ("Euronext") and traded on the London Stock Exchange. Shares of the PIMCO Euro Low Duration Corporate Bond UCITS ETF, the PIMCO Euro Short-Term High Yield Corporate Bond Index UCITS ETF and the PIMCO Euro Short Maturity UCITS ETF are listed and traded at market prices on the Deutsche Börse AG. The Funds are also listed and traded on other secondary markets. The market price for each Fund's shares may be different from the Fund's Net Asset Value ("NAV"). Each Fund issues (with the exception of the PIMCO Euro Short-Term High Yield Corporate Bond Index UCITS ETF and the PIMCO US Short-Term High Yield Corporate Bond Index UCITS ETF) and redeems shares at its NAV only in blocks of a specified number of shares ("Primary Shares"). Only certain large institutional investors may purchase or redeem Primary Shares directly with the Funds at NAV ("Authorised Participants"). Secondary market investors may redeem shares directly in circumstances where the stock exchange value of the shares significantly varies from its NAV. These transactions are in exchange for certain securities similar to a Fund's portfolio and/or cash.

The Funds invest in particular segments of the securities markets, which are not representative of the broader securities markets. While we believe that bond Funds have an important role to play in a well-diversified investment portfolio, an investment in a Fund alone should not constitute an entire investment program. It is important to note that in an environment where interest rates may trend upward, rising rates would negatively impact the performance of most bond Funds, and fixed income securities held by the Funds are likely to decrease in value. The price volatility of fixed income securities can also increase during periods of rising interest rates resulting in increased losses to the Funds. Bond Funds and individual bonds with a longer duration (a measure of the expected life of a security) tend to be more sensitive to changes in interest rates, usually making them more volatile than securities or funds with shorter durations.

The Funds may be subject to various risks in addition to those described above, in the Funds' Prospectus and in the Financial Risks in the Notes to Financial Statements. Some of these risks may include, but are not limited to, the following: real rate risk, derivative risk, small company risk, foreign security risk, high-yield security risk, specific sector investment risks and epidemic/pandemic related risk. The Funds may use derivative instruments for hedging purposes or as part of an investment strategy. Use of these instruments may involve certain costs and risks such as liquidity risk, interest rate risk, market risk, credit risk, management risk and the risk that a Fund could not close out a position when it would be most advantageous to do so. Funds investing in derivatives could lose more than the principal amount invested in these instruments. Investing in foreign securities may entail risk due to foreign economic and political developments; this risk may be enhanced when investing in emerging markets. High-yield bonds typically have a lower credit rating than other bonds. Lower rated bonds generally involve a greater risk to principal than higher rated bonds. Smaller companies may be more volatile than larger companies and may entail more risk. Concentrating investments in individual sectors may add additional risk and volatility compared to a diversified fund.

Certain Funds may pursue an Environmental, Social and Governance (ESG) investing strategy, which typically selects or excludes securities of certain issuers for reasons other than financial performance. Such strategy carries the risk that a Fund's performance will differ from similar funds that do not utilise an ESG investing strategy. For example, the application of this strategy could affect a Fund's exposure to certain sectors or types of investments, which could negatively impact a Fund's performance. There is no guarantee that the factors utilised by the Investment Advisor will reflect the opinions of any particular investor, and the factors utilised by the Investment Advisor may differ from the factors that any particular investor considers relevant in evaluating an issuer's ESG practices. Future ESG development and regulation may impact a Fund's implementation of its investment strategy. In addition, there may be cost implications arising from ESG related due diligence, increased reporting and use of third-party ESG data providers.

Classifications of Fund portfolio holdings in this report are made according to financial reporting regulations. The classification of a particular portfolio holding as shown in the Schedule of Investments sections of this report may differ from the classification used for the Fund's compliance calculations, including those used in the Fund's Prospectus, investment objectives, regulatory, and other investment limitations and policies, which may be based on different asset class, sector or geographical classifications. All Funds are separately monitored for compliance with respect to the Prospectus and regulatory requirements. Within the Schedule of Investments specific portfolio holdings may be aggregated where investments have the same attributes (i.e. coupon rates and maturity dates).

The geographical classifications of securities in this report are classified by the country of incorporation of a holding. In certain instances, a security's country of incorporation may be different from its country of economic exposure.

Important Information About the Funds (Cont.)

Certain securities and instruments in which a Fund may invest rely in some fashion upon the London Interbank Offered Rate ("LIBOR"). LIBOR is an average interest rate, determined by the ICE Benchmark Administration, that banks charge one another for the use of short-term money. In light of the phasing out of the use of LIBOR, relevant Funds will need to transition to another benchmark (e.g., the Secured Overnight Financing Rate, which is to replace U.S. Dollar LIBOR and measures the cost of overnight borrowings through repurchase agreement transactions collateralised with U.S. Treasury securities). Any potential effects of the transition away from LIBOR on a Fund or on certain securities and instruments in which a Fund invests can be difficult to ascertain, and they may vary depending on factors. The transition may also result in a reduction in the value of certain investments held by a Fund or a reduction in the effectiveness of related Fund transactions such as hedges. Any such effects of the transition away from LIBOR, as well as other unforeseen effects, could result in losses to a Fund.

On each individual Fund Summary page in this semiannual report, the net performance chart measures performance assuming that all dividend and capital gain distributions were reinvested. Returns do not reflect the deduction of taxes that a shareholder would pay on: (i) Fund distributions; or (ii) the redemption of Fund shares. The net performance chart measures each Fund's performance against the performance of a broad-based securities market index (benchmark index). Each Fund's past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. An investment in a Fund is not a deposit in a bank and is not guaranteed or insured by any government agency. The value of and income from shares in the Fund may go up or down and you may not get back the amount you have invested in the Funds.

The Funds may make available a complete schedule of portfolio holdings and the percentages they represent of the Funds' net assets. On each Business Day, before commencement of trading on Relevant Stock Exchanges (as defined in the Prospectus), each Fund will disclose on https://www.pimco.co.uk/en-gb/investments/etfs the identities and quantities of the Fund's portfolio holdings that will form the basis for the Fund's calculation of NAV in respect of the previous Dealing Day. Fund fact sheets provide additional information regarding a Fund and are made available on the Funds' website at https://www.pimco.co.uk/en-gb/investments/etfs.

¹ Annualised performance for periods of at least one year, otherwise cumulative.

The investment objective of the Fund is to seek to provide a return that closely corresponds, before fees and expenses, to the total return of the ICE BofAML 0-5 Year US High Yield Constrained Index (the "Index"). The Fund will invest its assets in a diversified portfolio of U.S. Dollar denominated Fixed Income Instruments (as defined in the Prospectus) that, as far as possible and practicable, consist of the component securities of the Index. The Fund may invest directly in the component securities of the Index or gain an indirect exposure to those securities through derivative instruments such as swaps. The Index tracks the performance of short-term U.S. Dollar denominated below investment grade corporate debt publicly issued in the U.S. domestic market including bonds, Rule 144a securities and pay-in-kind securities including Toggle Notes. Qualifying securities must have less than five years remaining term to final maturity, a below investment grade rating (based on an average of Moody's, S&P and Fitch), a fixed coupon schedule and a minimum amount outstanding of \$250 million. In addition, issuers of qualifying securities must be located in or have substantial business operations in investment grade countries that are members of the FX G10, Western Europe or territories of the U.S. and Western Europe.

Fund Insights

- » Security selection within healthcare contributed to performance, as select overweight issuers outperformed while a select underweight issuer underperformed.
- » Macro strategies contributed to performance, as an underweight to USD duration contributed to performance as interest rates rose.
- » Security selection within gaming and lodging contributed to performance, as select overweight issuers outperformed while a select void issuer underperformed.
- » Security selection within the transportation sector detracted from performance, as a select overweight issuer underperformed.
- » An underweight exposure to the retail sector detracted from performance, as the sector outperformed.

² Benchmark inception performance is calculated from the inception date of the oldest share class.

2. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies and estimation techniques adopted by the Company and applied in the preparation of these financial statements are consistent with those applied in the Company's annual audited financial statements for the financial year ended 31 March 2023 (the "Annual Audited Financial Statements"). The financial statements are prepared on a going concern basis for all Funds.

Basis of Preparation

The financial statements presented are unaudited condensed financial statements for the six month period ended 30 September 2023. They are

prepared in accordance with Financial Reporting Standard ("FRS") 104: "Interim Financial Reporting" as issued by the Financial Reporting Council ("FRC") and the UCITS Regulations.

The unaudited condensed financial statements should be read in conjunction with the Annual Audited Financial Statements, on which the auditors' opinion was unqualified, and which were prepared in accordance with accounting standards generally accepted in Ireland (FRS 102), Irish statute, comprising the Companies Act 2014, and the UCITS Regulations. The accounting standards generally accepted in Ireland in preparing financial statements are those issued by the FRC.

The information required to be included in the Statement of Total Recognised Gains and Losses and a Reconciliation of Movements in Shareholders Funds, is, in the opinion of the Directors, contained in the Statement of Operations and the Statement of Changes in Net Assets.

The Company has availed of the exemption available to open-ended investment funds that hold a substantial proportion of highly liquid and fair valued investments under Section 7 of FRS 102 and is not presenting a cash flow statement.

The financial statements are prepared under the historical cost convention as modified by the revaluation of financial assets and liabilities held at fair value through profit or loss.

The Company has adopted Euro as the presentation currency. The financial statements of each Fund are prepared in the functional currency of the respective Fund. The Company's Statement of Assets and Liabilities are translated using exchange rates at the financial period end and the Company's Statement of Operations and Statement of Changes in Net Assets are translated at an average rate (as an approximate of actual rates) over the financial period for inclusion in the Company's financial statements.

All amounts have been rounded to the nearest thousand, unless otherwise indicated. A zero balance may reflect actual amounts rounding to less than one thousand. The Schedule of Investments of certain Funds may hold transferable securities displaying both a nil par value and nil fair value when the actual par value and fair value amounts are rounded to the nearest thousand.

3. INVESTMENTS AT FAIR VALUE AND FAIR VALUE HIERARCHY

The Company is required to disclose the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

Fair value is defined as the amount for which an asset could be exchanged, a liability settled, or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction. Disclosure of a fair value hierarchy is required separately for each major category of assets and liabilities that segregates fair value measurements into levels (Levels 1, 2, and 3). The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. Levels 1, 2, and 3 of the fair value hierarchy are defined as follows:

- Level 1 Quoted prices in active markets or exchanges for identical assets and liabilities.
- Level 2 Significant other observable inputs, which may include, but
 are not limited to, quoted prices for similar assets or liabilities in markets
 that are active, quoted prices for identical or similar assets or liabilities in
 markets that are not active, inputs other than quoted prices that are
 observable for the assets or liabilities (such as interest rates, yield curves,
 volatilities, prepayment speeds, loss severities, credit risks and default
 rates) or other market corroborated inputs.
- Level 3 Significant unobservable inputs based on the best information available in the circumstances, to the extent observable inputs are not available, which may include assumptions made by the Board or persons acting at their direction that are used in determining the fair value of investments.

Refer to the Schedule of Investments for analysis of each Fund's financial assets and liabilities measured at fair value as at 30 September 2023 and 31 March 2023. The methodology applied by the Funds to classify financial assets and liabilities measured at fair value using a fair value hierarchy is consistent with that applied in the Annual Audited Financial Statements.

4. EFFICIENT PORTFOLIO MANAGEMENT

To the extent permitted by the investment objectives and policies of the Funds and subject to the limits set down by the Central Bank from time to time and to the provisions of the Prospectus, utilisation of financial derivative instruments and investment techniques shall be employed for efficient portfolio management purposes by all the Funds. The Funds may use these financial derivative instruments and investment techniques to hedge against changes in interest rates, non-functional currency exchange rates or securities prices or as part of their overall investment strategy.

The total interest income/(expense) arising from Repurchase Agreements during the financial period ended 30 September 2023 was €7,283,557/(€Nil) (30 September 2022: €2,631,482/(€334,606)).

The total interest income/(expense) arising from Reverse Repurchase Agreements during the financial period ended 30 September 2023 was €6,591/(€220,465) (30 September 2022: €129,213/(€218,895)).

The total interest income/(expense) arising from Sale-Buyback Transactions during the financial period ended 30 September 2023 was €Nil/(€19,750) (30 September 2022: €Nil/(€20,448)).

5. DIVIDEND DISTRIBUTION POLICY

It is the current dividend distribution policy of the Company to pay to the holders of Income Class Shares the net investment income of the Funds, if any (which consists of income less expenses). Dividends paid in respect of any Income Class Shares in the Funds will be declared monthly and paid in cash after declaration. In the case of the PIMCO Euro Low Duration Corporate Bond UCITS ETF and the PIMCO US Low Duration Corporate Bond UCITS ETF dividends paid in respect of any Income Class Shares will be declared quarterly and paid in cash after declaration.

The net investment income allocated to Accumulation Class Shares of the Funds will neither be declared nor distributed but the NAV per Share of Accumulation Shares will be increased to take account of the net investment income.

Any dividend distribution unclaimed after a period of six years from the date of declaration of such dividend distribution shall be forfeited and shall revert to the account of the relevant Fund.

6. SOFT COMMISSIONS

The Company or its Investment Advisor may effect transactions on behalf of the Funds with or through the agency of execution brokers, which may, in addition to routine order execution, from time to time, provide to or procure for the Company or its delegates' goods, services or other benefits such as research and advisory services. The Company or its Investment Advisor may pay these brokers full-service brokerage rates part of which may be applied in the provision of permitted goods or services. Those Investment Advisors which are Markets in Financial Instruments Directive ("MiFID") investment firms or subject to equivalent regulatory provisions shall pay for any third party research which it purchases relating to the management of the assets of each Fund directly out of its own resources.

7. SEGREGATED LIABILITY

The Company is an umbrella type open-ended investment Company with variable capital and segregated liability between sub-funds. Accordingly, any liability on behalf of or attributable to any Fund of the Company shall be discharged solely out of the assets of that Fund, and neither the Company nor any Director, receiver, examiner, liquidator, provisional liquidator or other person shall apply, nor be obliged to apply, the assets of any such Fund in satisfaction of any liability incurred on behalf of or attributable to any other Fund of the Company, irrespective of when such liability was incurred.

9. FEES AND EXPENSES

(a) Fees Payable to the Manager

The fees payable to the Manager as set out in the Prospectus shall not exceed 2.50% per annum of the NAV of each Fund.

(b) Management Fee

The Manager, in respect of each Fund and as described in the Prospectus, provides or procures investment advisory, administration, depositary and other services in return for which each Fund pays a single Management Fee to the Manager. The Management Fee (as defined in the Prospectus) for each Fund is accrued on each Dealing Day (as defined in the relevant Fund's Supplement) and is payable monthly in arrears. The Manager may pay the Management Fee in full or in part to the Investment Advisors in order to pay for the investment advisory and other services provided by the Investment Advisors and in order for the Investment Advisors to pay for administration, depositary and other services procured for the Funds by the Manager.

The Management Fee for each class of each Fund (expressed as a per annum percentage of its NAV) is as follows:

Fund	CHF (Hedged) Income/ Accumulation Class	EUR Income/ Accumulation Class	EUR (Hedged) Income/ Accumulation Class	GBP Income/ Accumulation Class	GBP (Hedged) Income/ Accumulation Class	USD Income/ Accumulation Class
PIMCO Emerging Markets Advantage Local Bond Index UCITS ETF	N/A	N/A	N/A	N/A	N/A	0.60%
PIMCO Euro Low Duration Corporate Bond UCITS ETF	N/A	0.49%	N/A	N/A	N/A	N/A
PIMCO Euro Short-Term High Yield Corporate Bond Index UCITS ETF	N/A	0.50%	N/A	N/A	N/A	N/A
PIMCO Euro Short Maturity UCITS ETF	N/A	0.35%	N/A	N/A	N/A	N/A
PIMCO US Dollar Short Maturity UCITS ETF	N/A	N/A	N/A	N/A	0.40%	0.35%
PIMCO US Low Duration Corporate Bond UCITS ETF	0.54%	N/A	N/A	N/A	N/A	0.49%
PIMCO US Short-Term High Yield Corporate Bond Index UCITS ETF	0.60%	N/A	0.60%	N/A	0.60%	0.55%

The Management Fees for all Funds were unchanged during the financial periods ended 30 September 2023 and 30 September 2022.

Given the fixed nature of the Management Fee, the Manager, and not shareholders, takes the risk of any price increases in the cost of the services covered by the Management Fee and takes the risk of expense levels relating to such services increasing above the Management Fee as a result of a decrease in net assets. Conversely, the Manager, and not shareholders, would benefit from any price decrease in the cost of services covered by the Management Fee, including decreased expense levels, as a percentage of net assets, resulting from an increase in net assets.

(c) Investment Advisory Services

On behalf of the Company, the Manager provides and/or procures investment advisory services. Such services include the investment and reinvestment of the assets of each Fund. The fees of the Investment Advisors and Distributor (together with VAT, if any thereon) are paid by the Manager from the Management Fee.

(d) Administration, Depositary Services and Other Services

On behalf of the Company, the Manager provides and/or procures administration, depositary and other services. Such services include administration, transfer agency, fund accounting, depositary and sub-depositary in respect of each Fund. The fees and expenses of the Administrator and Depositary (together with VAT, if any thereon) are paid by the Manager from the Management Fee, or by the Investment Advisors.

On behalf of the Company, the Manager provides and/or procures certain other services. These may include listing broker services, paying agent and other local representative services, accounting, audit, legal and other professional advisor services, company secretarial services, printing, publishing and translation services, and the provision and co-ordination of certain supervisorial, administrative and shareholder services necessary for operation of the Funds. Fees and any ordinary expenses in relation to these services (together with VAT, if any thereon) are paid by the Manager, or by the Investment Advisors on behalf of the Manager, from the Management Fee.

The Funds will bear other expenses related to their operation that are not covered by the Management Fee which may vary and affect the total level of expenses within the Funds including, but not limited to, taxes and governmental fees, brokerage fees, commissions and other transaction expenses (including, but not limited to, fees and expenses related to due diligence on investments and potential investments and/or related to negotiations of such transactions), costs of borrowing money including interest expenses, establishment costs, extraordinary expenses (such as litigation and indemnification expenses) and fees and expenses of the Company's Independent Directors and their counsel.

The Company paid the Independent Directors fees of €30,000 during the financial period ended 30 September 2023 (30 September 2022: €30,000). In addition, each Independent Director is reimbursed for any reasonable out-of-pocket expenses. Non-Independent Directors are not entitled to separate remuneration for their directorship of the Company. Directors' fees are a component of "Other expenses" on the Statement of Operations.

(e) Transactional Fees

The Directors may, at their discretion, impose the following transaction fees on Shareholders:

(f) Expense Limitation (including Management Fee Waiver and Recoupment)

The Manager has agreed with the Company, pursuant to the Management Agreement between the Company and the Manager dated as of 09 December 2010, as amended, to manage total annual fund operating expenses for any Class of Fund, by waiving, reducing or reimbursing all or any portion of its Management Fee, to the extent that (and for such period of time that) such operating expenses would exceed, due to the payment of pro rata Directors' Fees, the sum of such Class of such Fund's Management Fee (prior to the application of any applicable Management Fee waiver), and other expenses borne by such Fund's share Class not covered by the Management Fee as described above (other than pro rata Directors' Fees), plus 0.0049% per annum (calculated on a daily basis based on the NAV of the Fund).

In any month in which the Management Agreement is in effect, the Manager may recoup from a Fund any portion of the Management Fee waived, reduced or reimbursed pursuant to the Management Agreement (the

"Reimbursement Amount") during the previous 36 months, provided that such amount paid to the Manager will not: 1) exceed 0.0049% per annum of the Class of the applicable Fund's average net assets (calculated on a daily basis); 2) exceed the total Reimbursement Amount; 3) include any amounts previously reimbursed to the Manager; or 4) cause any Class of a Fund to maintain a net negative yield.

The Management Fee as disclosed in the Statement of Operations is recognised gross of the relevant management fee waiver where applicable. Management fee waivers are recognised within Reimbursement by Investment Advisors in the Statement of Operations. The Management Fee is paid to the Manager net of the waiver.

10. RELATED PARTY TRANSACTIONS

The Manager, Investment Advisors, Distributor and Directors are related parties. Fees payable to these parties are disclosed in Note 9, where applicable.

Each of the Funds may invest in the other Funds of the Company and/or other collective investment schemes managed by the Manager or entities affiliated with the Manager ("Affiliated Fund").

All returns from SFT derivative transactions will accrue to the Fund and are not subject to any returns sharing agreement with the Company's Manager or any other third parties.

For total return swaps transactions costs are not separately identifiable. For these investments, transaction costs are included in the purchase and sale price and are part of the gross investment performance of each Fund. Returns are identified as the realised gains and change in unrealised gains on the swap contract during the reporting period which are included within Net realised gain/(loss) on financial derivative instruments and Net change in unrealised appreciation/(depreciation) on financial derivative instruments within the Statement of Operations.

19. TRACKING ERROR

The following table sets out the tracking error for each of the Passive Funds for the financial periods ended 30 September 2023 and 30 September 2022. Tracking error is defined in the European Securities and Markets Authority ("ESMA") Guidelines as the volatility of the difference between the annual return of the index tracking UCITS and the annual return of the index or indices tracked. Each of these Funds performed within the target tracking error.

Fund	Tracking Error: 30 September 2023	Tracking Error: 30 September 2022
PIMCO Emerging Markets Advantage Local Bond Index UCITS ETF	0.42%	4.15%(1)
PIMCO Euro Short-Term High Yield Corporate Bond Index UCITS ETF	0.30%	0.20%
PIMCO US Short-Term High Yield Corporate Bond Index UCITS ETF	0.31%	0.88%

⁽¹⁾ The increase is attributed to security selection and valuation timing differences of Russian securities held in the Fund and the Index during the extreme events following Russia's invasion of the Ukraine.

20. SIGNIFICANT EVENTS

In February 2022, Russia launched an invasion of Ukraine resulting in sanctions imposed upon various Russian entities and persons. The Funds

may invest in securities and instruments that are economically tied to Russia. Such investments may have been negatively impacted by the sanctions and counter sanctions by Russia, including declines in value and reductions in liquidity. The reductions in liquidity in investments tied to Russia may cause the Funds to sell portfolio holdings at a disadvantageous time or price or to continue to hold investments tied to Russia that the Funds may no longer seek to hold. PIMCO will continue to actively manage these positions in the best interests of the Funds and its shareholders.
